

Rohan Gupta

Data Scientist & ML Engineer | Contact: rohan.gupta@gmail.com

SKILLS

Python, Pandas, NumPy, Machine Learning, Scikit-Learn, SQL, Statistics, Tableau, TensorFlow, PyTorch, Keras

EXPERIENCE

Data Scientist at Analytica. Designed and developed machine learning models using Scikit-Learn and TensorFlow. Performed exploratory data analysis using Pandas and NumPy. Designed dashboards in Tableau to display customer segmentations. Formulated statistical tests for A/B testing models.

PROJECTS

Predictive Sales Model: Built linear regression and random forest models to forecast sales. Chatbot Intent Recognizer: Built NLP models using PyTorch for classifying query intents.

EDUCATION

B.Tech in Computer Science and Engineering, IIST, Graduated 2022
