

Aditya Vardhan

Embedded Systems Engineer | Contact: aditya.v@gmail.com

SKILLS

C, C++, Embedded Systems, Microcontrollers, RTOS, Linux, Firmware, IoT, ARM Cortex

EXPERIENCE

Embedded Engineer at ChipTech. Programmed 32-bit ARM microcontrollers in C and C++. Developed custom firmware for low-power IoT sensor nodes. Wrote peripheral drivers (SPI, I2C, UART). Utilized FreeRTOS for scheduling tasks on embedded chips.

PROJECTS

Smart Energy Meter: Programmed firmware on MSP430. Smart City Node: Integrated sensors with ESP32 microcontroller.

EDUCATION

B.Tech in Electronics and Communication, IIST, Graduated 2022
